2002-2008: Member of the Board of Directors and Vice-President SIES

Other CV Information

Prof. Mario Luppi is an internationally recognized expert in epidemiological and biological studies of the association between human viruses and neoplastic and non-neoplastic hematological diseases and Kaposi sarcoma, in immunologic studies of the anti-tumor responses in patients with acute leukemias, in immunologic studies aimed at the diagnosis of fungal complications in leukemic and transplant patients, in studies aimed at the implementation of early palliative care and appropriate therapy of cancer pain.

He coordinated a research project of the E-R-UNIMORE Region of "Clinical Governance" on issues of early palliative medicine (simultaneous care) in collaboration with IRCCS / ASM Reggio Emilia and coordinating the RER Hematology Network.
