Chief of the Obstetrics wing of the Mother-Infant Department- Policlinico Hospital.

ISTRUZIONE E FORMAZIONE

- Date (da – a)

In 1983 she was graduated at the Liceo Scientifico Tassoni in Modena.
In 1990 she was graduated at the School of Medicine at the University of Modena and Reggio Emilia with the final grade 108/110. In 1994 she became specialist in Gynecology and Obstetrics at the same university with the final grade 30/30 e lode, in 1998 she obtained the PhD in Perinatal Medicine. In 2002 she obtained the degree of acupuncturist at the School “Centro Studi Terapie Naturali e Fisiche” in Torino recognized by the Italian Federation of Acupuncture School.

Since 1994 she is involved in studies about Perinatal Medicine and in particular, during the PhD, she has deepened the study of the L-arginine-nitric oxide system throughout in vitro and in vivo studies in women affected by gestational hypertension and preeclampsia. However, during PhD she started with studies about computerized cardiotocography and fetal biophysical profile.

After the degree of acupuncturist, she has designed studies about acupuncture and breech presentation correction, hyperemesis gravidarum treatment, improvement of breastfeeding, labour progression and pain management and labour induction.

More recently she continued the studies about L-arginine-nitric oxide system evaluating in particular the effects of oral administration in women affected by gestational hypertension and preeclampsia and studies about the complication of obesity during pregnancy, in particular the onset of gestational hypertension and diabetes, stillbirth and complications during labour

She is Principal Investigator of several studies, either observational or with drugs, and since 2020 she is involved in studies with Italian Institute of Health for the feto-alcolic syndrome detection and management.
